

BIRD SCIENCE

AND ENVIRONMENTAL EDUCATION
2014-2015

BIRD STUDIES
ÉTUDES D'OISEAUX **CANADA**

Bird Studies Canada is a national, charitable organization dedicated to the study and conservation of wild birds and their habitats. The Bird Science and Environmental Education program combines active bird research, Citizen Science and curriculum-linked programming to provide an engaging educational experience that fosters awareness, appreciation and stewardship of birds and the environment.

Studying birds in the classroom?
Student research project about birds or conservation?
Contact BSC for support and resources to assist your students in their bird quest!

"Birds...are the most exciting and deserving of the vertebrates; they are perhaps the best entrée into the study of natural history, and a very good wedge into conservation awareness"

*-Roger Tory Peterson
(1908-1996)*
